

SPP is Free Trade on Steroids! Wake up and Resist!

The "Security and Prosperity Partnership (SPP)" is "harmonizing" Canada's regulations with those of the US and Mexico - in negotiations behind closed doors. Only the business elite will benefit.

Free Trade means trade free from regulation! Trade rules are changing, free from parliamentary or public debate.
Is this democracy?

Bush will join Harper (and the heads of 30 large corporations) at Montebello, Quebec (just 70 km from Ottawa) on August 20-21 to move the SPP along its secret path of deregulating goods and over-regulating people.
